General comments:

This annex relates to quarterly and annual submission of information for individual entities.

This template shall be reported from an accounting perspective (Local GAAP valuation).

The template is based on a year-to-date basis.

The following criteria for the classification by country shall be used:

- The information, provided by country, shall be completed for the five most significant countries in addition to the home country or until reaching 90% of the gross written premiums;
- For the direct business for the lines of business “Medical expense”, “Income protection”, “Workers’ compensation”, “Fire and other damage to property” and “Credit and suretyship” information shall be reported by country where the risk is situated as defined in Article 13 (13) of Directive 2009/138/EC;
- For direct business for all other lines of business, information shall be reported by country where the contract was entered into;
- For proportional and non-proportional reinsurance information shall be reported by country of localisation of the ceding undertaking.

For quarterly reporting administrative expenses, investment management expenses, acquisition expenses, overhead expenses shall be presented aggregated.

For the purposes of this template “country where the contract was entered into” means:

- a. The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- b. The country where the branch is located (host country) when the contract was sold through a branch;
- c. The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
