

s.22.06 – Best estimate subject to volatility adjustment by country and currency

This section relates to annual submission of information for individual entities.

This template shall only be reported by insurance and reinsurance undertakings that apply volatility adjustment in accordance with Article 77d of the Directive 2009/138/EC.

This template shall reflect the gross best estimate of insurance and reinsurance life obligations subject to volatility adjustment split by currency of the obligations and by country in which the contract was entered into. The best estimate reported shall take into account the volatility adjustment. The best estimate subject to any matching adjustment shall not be reported in this template.

Information shall be reported in relation to material obligations in countries and currencies for which a currency volatility adjustment, and a country increase if applicable, is applied until 90% of the total best estimate subject to volatility adjustment is reported.
